Information on favorable conditions and benefits provided to investors in the Republic of Karakalpakstan

- 1. Entrepreneurs of the Republic of Karakalpakstan in the period up to January 1, 2028: tax rates on income tax, turnover tax, property tax and land tax have been reduced by 50 percent; social tax is paid in the amount of 1%;
- 2. In the event that the objects of state ownership, which are at public auction in the territory, will not be sold within 3 months, the objects will be provided to the applicant who made the best offer on the basis of an electronic tender, with the obligation to invest;
- 3. In Muynak district, the tax rates established for income tax, turnover tax, social tax, and personal income tax are set at 1 percent;
- 4. Business entities in the districts classified in the 5th category (Takhtakupyr, Kegeyli, Bozatau, Shumanai, Kanlykul, Muynak) pay income tax, turnover tax and social tax, property tax and land tax at a tax rate of 1 percent.
- 5. If the value of state assets exceeds the base estimated value by 50,000 times, an installment payment procedure is introduced for up to 7 years.
- 6. Participants of the free economic zone "Nukus" will be exempt from paying land tax, property tax, income tax, water tax, social tax is paid in the amount of 1 percent, customs duties on imports of equipment and components are not paid, and the possibility of delaying payment of value-added tax for up to 120 days is created.

Information on favorable conditions and benefits provided to investors in the Republic of Karakalpakstan

According to Presidential Decree No. PF-10 dated January 27, 2025 "On additional measures to further support entrepreneurship and create new opportunities for ensuring the well-being of the population in the Republic of Karakalpakstan"

1. In the period from 2025 to 2027, based on the resolution of the Council of Ministers of the Republic of Karakalpakstan, it is allowed to allocate land directly for large investment projects worth at least 500 thousand dollars in the city of Nukus, 300 thousand dollars in Amudarya, Nukus, Kungrad and Khojaly districts and 100 thousand dollars in other areas (including enterprises with foreign investments, free economic zones zones, small industrial zones, youth industry and entrepreneurship zones).

2. In 2025-2027, the Cabinet of Ministers was granted the right to change the category of the land fund of non-irrigated land plots as part of forest and agricultural lands (pastures, lands with insufficient access to water, lands with low productivity).

3. In 2025-2026, 60 mln dollars will be allocated for the development of industry in Karakalpakstan through a credit line from the Fund for Reconstruction and Development.

-loans in the amount of up to 10 bln soums at a rate of 14% per annum for up to 7 years with a two-year grace period are allocated to finance small and medium-sized business projects in national currency. In addition, \$ 40 mln will be allocated for the construction of 6 new buildings (to complete the construction of a ready-made facility) for the development of industry in the city of Nukus, Amudarya, Kanlykul, Nukus, Kungrad and Chimbay districts.

- 35 thousand hectares of agricultural land are being gradually put up for electronic online auctions at discounted prices. In addition, the owners of these lands are allowed to build the following facilities along the edges of fields on plots of no more than 20 acres, without ownership of these plots: light-weight refrigerating chambers, sorting, processing and packaging facilities, water-saving technologies and reservoirs, construction of field sheds and equipment parks is allowed.

Information on favorable conditions and benefits provided to investors in the Republic of Karakalpakstan

- 4. Tenants of land plots independently determine the types and volumes of agricultural crops, as well as ways to grow them and carry out agrotechnical measures. In addition, preferential loans without collateral, but with insurance coverage, are being allocated to finance the cultivation of sesame and masha.
- 5. In 2025, 4 biotechnological centers equipped with embryo transfer technologies will be created for the breeding of cattle, sheep and goats.
- 6. 90 vacant properties on the banks' balance sheet will be revalued at market value and put up for auction with the condition of payment in installments for 10 years.
- 7. At the same time, as a benefit for industrial enterprises of the Republic of Karakalpakstan, it is planned to reduce the electricity tariff by 15 percent compared to the current tariffs. A draft resolution of the Cabinet of Ministers is being developed for this purpose.

NOT SUBJECT TO CUSTOMS DUTY:

Property imports for the personal needs of foreign investors, citizens of foreign states and stateless persons permanently residing outside the Republic of Uzbekistan and staying in the Republic of Uzbekistan in accordance with employment contracts concluded with foreign investors

Goods imports by foreign legal entities that have made direct investments in the economy of the Republic of Uzbekistan for a total amount equivalent to more than 50 mln US dollars, provided that the imported goods are products of their own production

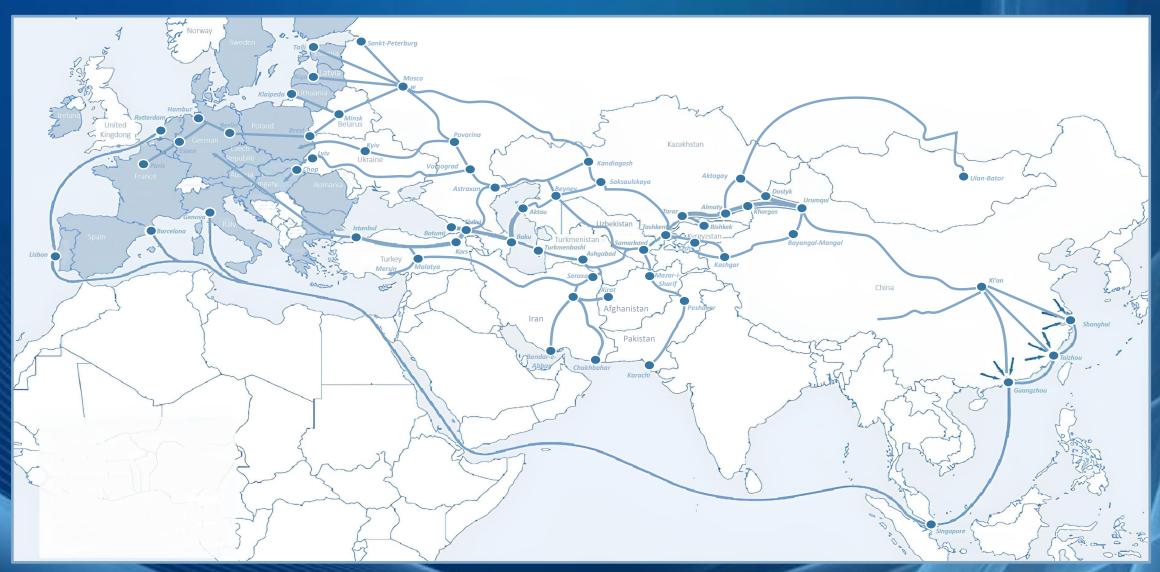

Goods intended for work under a production sharing agreement and imported in accordance with the project documentation by a foreign investor under a production sharing agreement, as well as exported products owned by him in accordance with a production sharing agreement

Technological equipment, analogues of which are not manufactured in the Republic of Uzbekistan, imports into the territory of the Republic of Uzbekistan according to the approved list.
