

1. **Company Name : VGT Group Indonesia**

( please find the company profile at : <https://visiglobalteknologi.co.id/> )

- **In brief :**

Visi Global Teknologi (VGT) Group is an Indonesian company specializing in information technology (IT) solutions. VGT's services are designed to help clients maintain a competitive edge in their respective industries, positioning the company as a trusted partner for business growth and leadership.

Each solution is customized to meet the specific needs of individual clients, ensuring relevance and effectiveness. With a strong commitment to excellence, VGT continuously strives to deliver the best IT solutions and to establish itself as a leading and respected ICT solution provider.

- **Services :**

- Integrated Infrastructure: Build and manage IT infrastructure from data centers, networks, cloud, to security, ensuring reliable and secure business operations.
- System Optimization: Enhance IT infrastructure performance while maintaining consistent service quality and reducing operational costs.
- Sensor Solutions: Providing specialized solutions for the integration and effective use of new and advanced sensors in your systems.

- **Products :**

- Weight in Motion: Dynamic weighing system that measures weight in real-time as vehicles move, improving operational efficiency and accuracy.

- ii. X-Ray Scanners: Providing reliable and accurate X-ray scanning technology for inspection and security purposes.

- **Business Objective :**

Visi Global Technology (VGT) aims to establish strategic partnerships with leading technology manufacturers in China—specifically corporate-level suppliers capable of fulfilling customized orders, rather than distributors or small-scale/home manufacturers. Through these partnerships, VGT seeks to secure reliable hardware supplies essential for delivering high-quality solutions to its clients. VGT’s business vision extends beyond the Indonesian market, with a strong focus on expanding its reach to the ASEAN region and Saudi Arabia.
