

2. **PT. Dayantara Global Sentosa (fruit producer & trader)**  
( Please find the company profile at [www.dayantarags.com](http://www.dayantarags.com) )

- **In brief :**

PT. Dayantara Global Sentosa is an Indonesian export company engaged in the distribution of tropical agricultural products to the international market. We are committed to providing high-quality fruits harvested directly from trusted local farmers in various regions in Indonesia.

Our main focus is to ensure that every fruit we send—from pineapple, mango, banana, salak, dragon fruit, and other tropical fruits—has the maximum level of freshness, meets global export standards, and arrives on time at its destination.

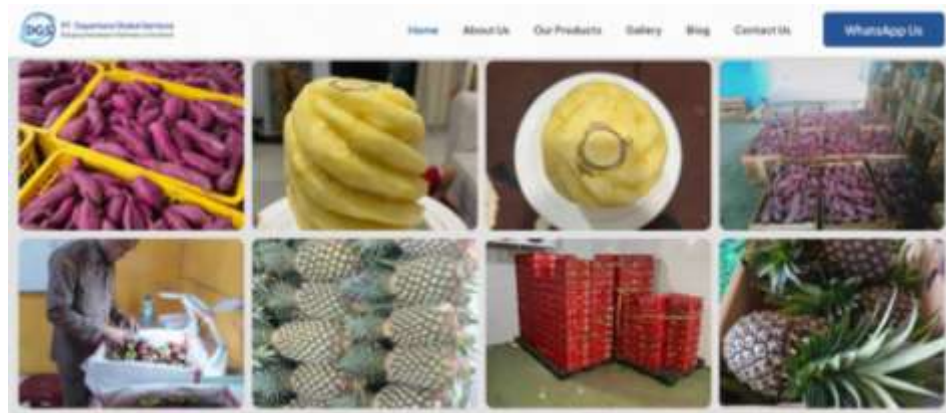

We believe that Indonesia has extraordinary natural wealth that deserves to be known to the world. Through Dayantara, we want to introduce the taste, quality, and potential of Indonesian tropical agriculture to the global market in a sustainable and professional manner.

Currently we have marketed tropical fruits from our farmers to the Saudi Arabian and Middle Eastern markets.

- **Products :**

We present the best Indonesian tropical fruits ready to export to various countries, with fresh quality and meeting international standards :

1. Pineapple. Natural sweet taste with juicy texture, suitable for consumer market who like fresh and refreshing fruit.
2. Mango. Strong aroma, soft flesh, and tropical taste typical of Indonesia. Favored by many global markets for its quality and natural taste.
3. Banana. Fruit is a practical source of energy and has high nutrition. Suitable for mass consumption.
4. *Salak*. Unique, exotic, and rich in nutrients. It tastes sweet and sour, making it an export favorite because it is not widely available in other countries.
5. Dragon fruit. Attractive, rich in antioxidants, and highly sought after in the premium market. Red and white variants are available upon request.

Our product fruits are of good quality and meet sustainable farming standards :

- i. Premium quality. Each fruit is strictly selected to meet international export standards.
- ii. Reliable and consistent supply. On-time and stable delivery, especially for seasonal needs.
- iii. Direct from farmers. We work directly with local farmers, without middlemen — fresher and more efficient.
- iv. Competitive price. Due to direct sourcing, we can offer the best prices without sacrificing quality.

- **Business Objective :**

PT. Dayantara is exploring opportunities to export tropical fruits, especially cut pineapples to the Chinese market. The fruits we market are available in canned and fresh packaging. We want to explore cooperation with fruit importers from China, and if possible long-term cooperation with distributors in China.
